Frontend Web Developer

Phone: +91 7204666794 ◇ Bangalore, India

## SUMMARY

---

Frontend Web Developer with hands-on experience building responsive and interactive websites using HTML, CSS, and JavaScript. Strong focus on clean UI, usability, and attention to detail. Passionate about creating real-world web applications, improving user experience, and continuously learning modern frontend technologies.

## EDUCATION

---

**Bachelor of Computer Applications**, Yenepoya (Deemed-to-be) University, Bangalore 2023 – 2026

## SKILLS

---

<b>Frontend:</b>	HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS
<b>UI/UX:</b>	Figma, Wireframing, Responsive UI Design
<b>Web Concepts:</b>	Responsive Design, REST API Integration, Form Handling
<b>Tools:</b>	Git, GitHub, Browser DevTools, VS Code
<b>Soft Skills:</b>	Attention to Detail, Time Management, Communication Skills, Team Collaboration

## PROJECTS

---

### Weather Application — HTML, CSS, JavaScript, OpenWeather API

Developed a responsive weather application that displays real-time weather data for multiple cities using API integration. Implemented dynamic UI updates, input validation, and mobile-first responsive design.

### Little Lemon Restaurant Website — React, CSS

Built a React-based restaurant website as part of a frontend development project. Utilized reusable components, routing, and responsive layouts. Leveraged AI tools and official documentation to assist with implementation while focusing on understanding UI structure and user flow.

### E-commerce Website — HTML, CSS, JavaScript

Developed a multi-page e-commerce website featuring product listings, shopping cart functionality, checkout flow, search, and filters. Focused on clean UI design, responsiveness, and JavaScript-based interactivity.
